Second Call For Papers for 5th International Conference on Information Society and Technology (ICIST 2015) in conjunction with the 21st YUINFO 2015 Conference
http://www.yuinfo.org/icist2015
https://www.facebook.com/icistkopaonik5th

International Conference on Information Society and Techology will be held on Kopaonik, Serbia on March 8-11, 2015.

The main objective of the conference is to provide a platform for ICT oriented researchers and practitioners from all over the world to present their research results and development activities, to exchange experiences and new ideas, to discuss challenges, and to establish business or research relations for future collaboration.

This year's ICIST special focus is at the Future Internet Technologies, Architectures and Applications. The authors are invited to submit the papers which will deal with the issues of the current Internet, related to performance, scalability, security, etc., while addressing the potential applications of the solutions for these issues, namely, their societal, economic and business aspects.
